BODY THERAPY

Nourishing Basalt Stone Body Contour

Aromas of native citrus fruits, an herbal tea blend, and marine botanicals envelope the senses as warm basalt stones polished smooth by the ocean relieve tired muscles. You will feel the warmth as if you were basking on the beach in the Florida sunshine. This treatment ends with two exquisite seaweeds blended with herbs and caffeine to help the skin feel silky smooth and improve tone.

Cryotherapy Slimming Wrap

Experience the detoxifying and slimming effects of layers of chilled seaweed and feel revived. This slimming treatment helps alleviate water retention while soothing tired, achy muscles. Not only is this an ideal cellulite treatment, but it's also the perfect treatment for athletes and weight trainers targeting stubborn love handles.

Seaweed Body Wrap

This treatment is based on the renowned esthetical technique of heat wrapping; gentle exfoliation using dry body brushing stimulates the epidermis at the start of the treatment. This seaweed "cocoon" treatment leaves you beautifully relaxed and visibly purified.

Tropical Sugar Scrub

Customize your experience with this refreshing body scrub. Select from native South Florida Mango or Moringa infusions creating an immersive experience. Dry body brushing encourages lymphatic flow, sugar scrubs exfoliate dry, dull skin, and you are left feeling silky smooth, and rejuvenated.

Integral Living

As the name implies, Integral Living entails a conscious performance of deliberately chosen activities to enhance one's life in a more meaningful and fulfilling way. These practices carefully target the four primary dimensions of an individual being or whole person - body, mind, spirit and shadow.
